For reading we will review "ed" and "ing" endings, reading comprehension and high frequency words. In math we will work on Chapter 19 which is our last Unit for math this year!(Addition Facts through 20). In Science we will observe the changes in our lima beans and how they grow, review the parts of the plant and what do plants need to live. The students are working on a plant journal, observing their lima bean plants as they grow! As always, please review your spelling words and sight words for the week. We are excited to see everyone's Cultural Fair Presentations next Friday!
